S. H. Craig's Book of Moldings contains a great variety of cornice, mouldings, base or washboard, architraves, stairs, rails, newels, balusters, brackets, mantles, doors, windows, columns, veranda posts, etc.

Remember the first thing when about to build or alter is to obtain a good plan, bill of items, and specifications. By so doing you invite competition, as each branch is brought within the comprehension of ordinary mechanics, enabling them to estimate, in a short time, intelligently. Starting thus with a definite plan, you ascertain the whole cost before commencing, and avoid alterations and disputes.

Patented 29th October.

HUNTER'S California Grain & Seed Cleaner.

We desire to call the attention of Farmers and others interested, to our new invention for cleaning all kinds of Grain and Seed.

It has been the desire of the inventor to produce a Machine that would combine cheapness, durability and efficiency. We believe that he has succeeded so far that no other machine can be found to do the same work.

It separates Oats from Spring Wheat; Chess, Cockle, Rye, and other refuse matter from Fall Wheat; Oats from Barley; clover, Timothy, and Hungarian Seed perfectly; takes Red Top from Timothy, and in fact does all and everything in the shape of a cleaner that a farmer can ask for.

We claim nothing but what we can do, and respectfully ask parties desirous of purchasing to examine our Machines.

Our Machines run very easily; are constructed of the best material; are not liable to get out of order, and are in every respect what the Farmer needs. *We have many Testimonials from Farmers and Warehousemen.*—PRICE \$25.00.

This Machine has taken Premiums, both at the Provincial Exhibitions and County Fairs, here and in the United States.

We also wish to call your attention to our REVOLVING HORSE RAKE, with *Bridge-man's Patent Springs*—a first-class Machine, which we guarantee to be both simple and durable—PRICE \$8.00.

Sash, Doors and Blinds. Mouldings of every description. Also, a large lot of Hot-Bed Sash.
